The idea behind the identity

Students arrive at United International Academy from many countries, systems and languages. We *unite* them in one community and prepare them for the world's universities.

UNITED

The three letters U, A and I interlock into one symbol: different students, one academy.

INTERNATIONAL

A curriculum and community built for students who will study and work across borders.

ACADEMY

The mortarboard crowns the letters as a mark of academic achievement and graduation.

GOLD

Academy Gold stands for excellence and the achievement each student works toward.

What we stand for

Four values guide how the academy teaches, communicates and presents itself. Every piece of communication should reflect at least one of them.

01

High academic standards and the support to reach them.

02

Global outlook

Every lesson prepares students to study and live anywhere.

03

Community

Students, families and teachers working toward the same goal.

GRADES 10–12

Two parts, one logo

The logo is made of a symbol and a wordmark. They are always used in this order and proportion.

SYMBOL

The letters U, A and I interlock beneath a mortarboard. A blue ribbon links the A to the I, and the blue tassel echoes it. The symbol is drawn in Academy Gold; the ribbon and tassel are its only accents.

WORDMARK

UNITED set in Archivo at its widest cut. INTERNATIONAL ACADEMY is set at normal width and spaced to exactly the same measure, so the name reads as one block.

The signature

Use the full-colour logo on white or Paper. On Midnight, use the reversed version, where the symbol stays gold, its accents turn white and the wordmark turns white. Always use the master artwork; never redraw or retype it.

SYMBOL

Full colour to one ink

Use full colour by default and the reversed version on dark grounds. Single-colour versions are for embroidery, foil, engraving, stamps and photocopies.

What to avoid

The logo only works when its proportions, colours and spacing are kept exactly as drawn. Do not alter the master artwork in any way.

Blue & gold

Academy Blue and Academy Gold come from the logo. Midnight is the dark ground for covers, signage and social posts. Use gold sparingly: one point of emphasis per layout, never as a background for long text.
